

# The \$AUD10,000 Universe Challenge!

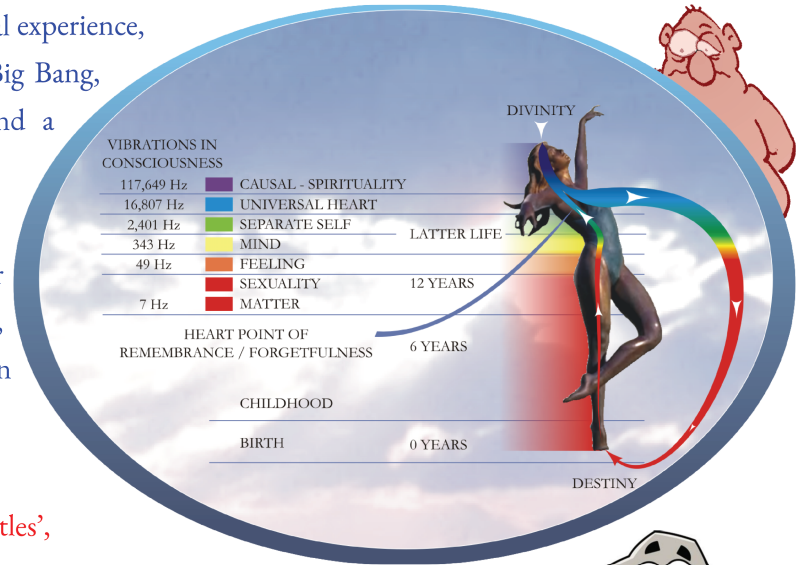

‘Rocks from Nothing’,  
or ‘Quantum Images, upon an Eternal Mirror’?

Four simple images, based upon 5000 years of mystical experience,  
reveal the Hidden Splendour, connecting science’s Big Bang,  
Plato’s Cave Model, the Aboriginal Dreaming, and a  
myriad of the world’s religious faiths.

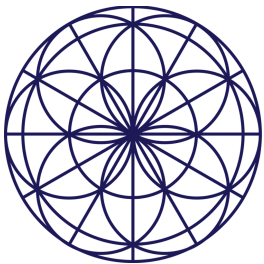

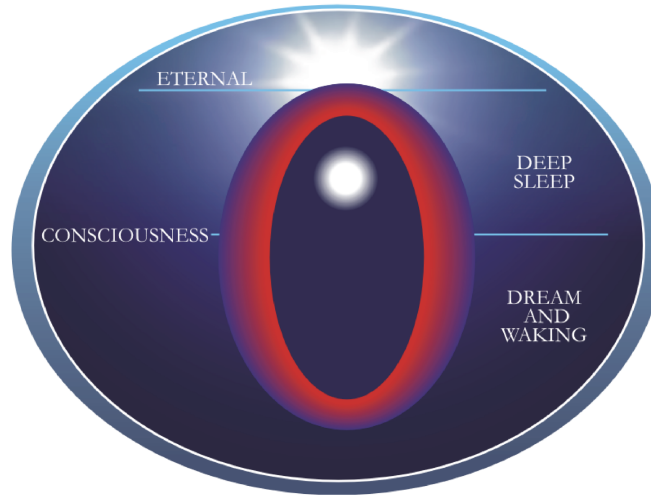

At last, we unify mathematical Pi, Dark Matter  
and Dark Energy, sub-particle chromodynamics,  
solar system distances, DNA codons, the human  
psyche, octet music, and the ‘Mind of God’!

Perhaps our human bodies, are magical, ‘genie’s bottles’,  
woven from three dimensions of consciousness,  
and five dimensions of Eternal Awareness?

Does the waking dimension, and our physical universe, comprise only,  
2.0408163265..%, within the three conscious Realms?  
Are Dark Matter and Dark Energy, octet dimensions of consciousness,  
conjured into existence, as cosmic symphonies?  
Can we describe, India's ancient Aum theory, as the algorithm,  
the mysterious 'recipe' for our universe, existing Eternally,  
beyond the Illusions, known as Space and Time!
