

Introduction Letter, to the \$AUD10,000 Universe Challenge!

Subject: [The Standard Particle Model](#), [Plato's Cave Theory](#), the [Aboriginal Dreaming](#),
[Mystical Theory](#), and '[The \\$AUD10,000 Universe Challenge!](#)'

This Universe Challenge, includes three powerful images, based upon human wisdom.
They are the images of the [Psyche](#), the [Universe](#), and the [Theory of Everything](#).

A fundamental question for our Age, 'do we live within a universe, based upon matter, or consciousness?'

Science's [Standard Particle Model](#), suggests a matter-based universe, with consciousness arising, as 'hallucinations' created by complex chemistry, leaving us to wonder, how can 'hallucinations', power the scientific method?'

Alternatively, [Plato's Cave theory](#), proposes a simulation-universe, appearing within 'theatres' of consciousness, a concept perhaps affirmed, by the two [non-baryonic dimensions](#), known as dark matter, and dark energy; the missing [universal mass](#); and '[quantum actions at a distance](#)', moving faster than the speed of light.

We can also suggest, the [Ba Gua](#) octets, from ancient Chinese Taoism, may explain the octaves, appearing within the four realms, those of matter, biology, psyche, and consciousness, such as the 64 codons of [DNA](#), the '[eight-fold way](#)' of sub-particle chromodynamics, the triple-octet of transcendent [Pi](#), and octet music.

[Indian Yoga](#), describes the human [body-psyche](#), as an 'iceberg tip', appearing within five dimensions of Eternal Awareness, and three dimensions of consciousness. Further, India's [Aum](#) theory, can be presented, as a 64 Power, [Theory of Everything](#).

Astonishingly, historical mysticism, may solve science's dilemmas, surrounding dark matter, dark energy, mathematical Pi, the input formula for our universe, and the Theory of Everything!

Additional [Challenge](#) information, can be found, in this further [Introduction](#).
