

HERE BE DRAGONS!

'THE \$AUDIO,000 UNIVERSE CHALLENGE!'

The cartoonists, enjoy their satire, as science struggles with the Big Questions, surrounding time, space, gravity, light, matter, and consciousness. In these cartoons, amidst whiteboards of abstract mathematics, there often appears a concluding phrase, such as, 'at last, the Miracle'. This final, scientific calculation, was historically recorded, upon the ancient maps, as 'Here be Dragons'!

When science describes consciousness, as 'hallucinations', produced by complex chemistry, then how can these, 'mad-hatter' delusions, also power, the scientific method?

Our world needs creation models, where ‘matter is light’, inscribed with information, arising within theatres of consciousness, and Eternal Awareness. Welcome to Socrates’s Cave, India’s Aum Theory, Chinese Taoism, 60,000 years of the Aboriginal Dreaming, and ‘The \$AUD10,000 Universe Challenge’!

Please consider, four mystical, ‘riddles’ of perception, conjured into existence, by our senses. Firstly, the earth ‘appears’ to be flat, the sun to orbit the earth, and the earth to be the centre of the universe.

Secondly, matter ‘appears’ to create consciousness.

Thirdly, the ego, astonishingly, ‘seems’ to be separate, from the surrounding universe.

And fourthly, the Eternal Multi-Verse, ‘seems’ to be hidden, within three dimensions of consciousness, those of waking, dream, and deep sleep!
