

The Rosetta Psyche!

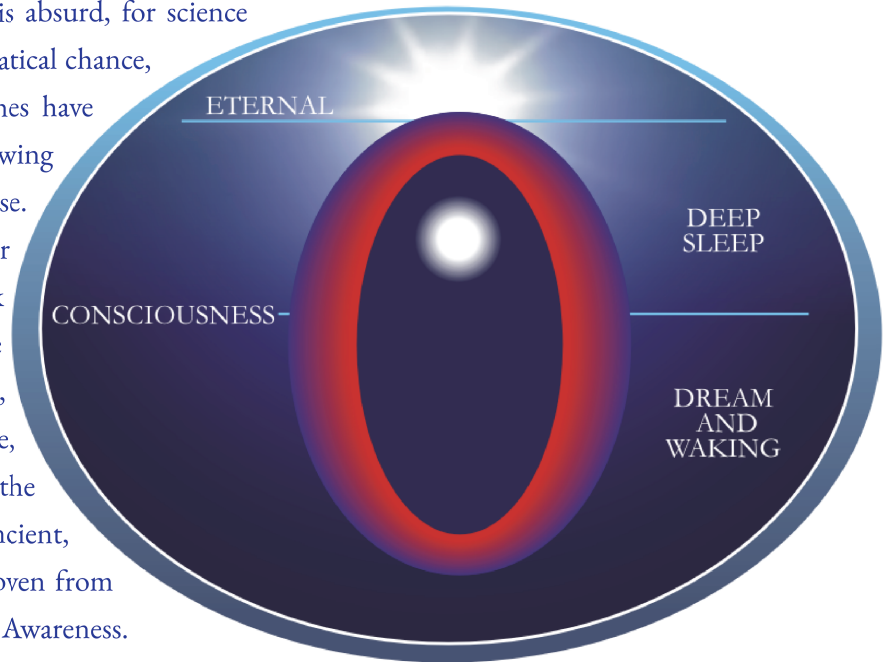

The historical Rosetta Stone, inscribed with ancient Greek, and Demotic Egyptian scripts, includes a Hieroglyphic translation, allowing us to decipher, a myriad of archeological, Egyptian texts.

In our modern era, the term 'Rosetta Stones', suggests new fields of knowledge!

Empirical, rational Science, over centuries, has sought to understand our universe, and these journeys, beneath the 'lamp of reason', have unveiled superb technology, and also humiliating failure, when confronted, with the 'hard problem' of consciousness. 'How, if we are just atoms, do we think'? As a potential solution, let us overlay, India's 5000-year-old, Aum creation theory, with the Chinese, Taoist Ba Gua, also with 5000 years of continuous history. We may then discover, the musical instrument, known as the 'Rosetta Psyche', describing our teleology, our divine 'purpose'.

If this 'Rosetta Psyche' is authentic, then it is absurd, for science to claim, our universe is a creation of mathematical chance, simply 'Rocks from Nothing', for our psyches have been precisely designed, as 'cosmic keys', allowing us to explore, the treasure-chest of our universe. Science's three dimensions, those of our physical universe, Dark Matter, and Dark Energy, have transformed, into the three mystical, octet dimensions, known as Waking, Dream, and Deep Sleep. Our physical universe, now comprises, only 2.040816.%, within the three dimensions, and we are entering, an ancient, eight-dimensional, 'Theory of Everything', woven from 64 powers, those of consciousness, and Eternal Awareness.

Welcome to the \$AUD10,000 Universe Challenge, where the diverse minds, from science, psychology, philosophy, music, religion, shamanism, and mysticism, can gather together, for a cup of 'contemplation', within a 'Buddha' game, conjured into existence, by a 'Socratic Cave'!
